

INTRODUCTION

“**DSS PAKISTAN (DSS-P)**” is one of the leading names in the Safety & Security solutions providing industry of Pakistan.

According to the Maslow theory, “hierarchy of needs” security is the second most important necessity without which it is impossible to survive even. The primary level of security start from our dwelling but in terms of acquiring harmless life pattern you are supposed to go for something more reliable and faithful. By keeping in mind the present situation of Pakistan, we own your problem and think about your precious life. The **DSS PAKISTAN (DSS-P)** is an emerging name of excellence and trust.

No matter it’s your domestic or commercial space both are for the same reason meaningful and exquisite. To enjoy the fruitful results at your work or a memorable moment at home you need to have a peaceful surrounding and a sound healthy mind to feel the valuable moments in time. For this, **DSS PAKISTAN (DSS-P)** is here to provide you a trustworthy system of security. You are at our priority and your needs are all we own.

Our latest technology gadgets are designed to provide you a peaceful atmosphere to experience more stint that is productive. We are not only working on the typical items but also provide the modified form of security through glass medium. This will not only provide you a safe ambiance but will also retain the beauty of your building. Moreover, we are also offering an authentic attendance system to let you record conveniently without any mishandling.

All of our products are meant to work durably and efficiently especially the detectors are designed with high quality materials and are checked under the international security standards. Nothing is more precious than your life, which can snatched from a little piece of metal in the form of bullet, to secure yourself from such dangers you can rely on our products, which are bullet proof and are easy to acquire.

Apart from this, we provide you our trained team workers, which will not only describe you the usage but will also help you in installation. Do not take your life as an ordinary entity by leaving it in the hand of terrorists, save it by grabbing the reliable means of safety and security.

May the Allah bless you all with contented and secure life..... Ameen

DSS PAKISTAN (DSS-P) PRODUCTS OVERVIEW

- **DSS-P Glass Protection System against Terrorism & Vandalism (DSS-P GPS):**

Our core product is DSS-P Safety and Security window films are polyester films that are applied to glass and glazing in order to hold them together if glass is shattered. The films coated to bond them to the glass. The better safety films are smooth-coated, because they have superior optical clarity.

- **DSS-P Solar Heat Protection Film (DSS-P SHPF):**

Only a few degrees in temperature reduction can have up to an 80% reduction in cooling costs, due to the laws of thermodynamics. It requires considerable amounts of energy to remove heat from a room through air conditioning. During peak summer times in the middle of the day, loads on air conditioning systems can be reduced enough to turn off entire units or to install a less costly system.

- **DSS-P Frosted Film Application (DSS-P FFA):**

These beautiful frosted glass films add privacy to any window or glass door without darkening the room. Use Frost and Deco Tint Privacy colors to create a custom look and provide maximum privacy from prying eyes. Add the decorative elegance of colored frost glass to any plain glass surface - windows, glass doors, shower enclosures, mirrors, glass tables, cabinet doors and more. Frosted glass window films contain a finely ground glass dust that recreates the beautiful shimmer and sparkle of expensive frosted glass

- **DSS-P Electric Fence (DSS-P E-Fencing):**

Barbed wire/ Razor wire get cut, the gates get climbed, dogs get poisoned and guards get tired but **DSS-P Electric Fence Systems** provide **round the clock automatic detection and alarm**. Upon contact, the fence gives an extremely painful and disorienting **High Voltage but Non-Lethal Electric shock**, which stuns the intruder and makes it impossible to climb the fence. An electric fence deters, detects, denies and defends your property. It is based on a strong physical and psychological barrier that keeps away intruders. It also buys valuable reaction time that is usually the difference between life and death.

- **DSS-P Armoring Systems for Vehicles (DSS-P DAV): Authorized Dealer**

A civilian **Armored Vehicle** is a security vehicle that made by replacing the windows of a standard vehicle (typically a limousine, SUV's, Toyota Land Cruiser, Prado, Vigo, Toyota Gli 1.8, Armour Personal Carrier APC, Cash In Transit Vehicle CIT) with bulletproof glass and inserting layers of armor plate into the body panels. Unlike a military armored car, which has armor plate mounted on the outside of the vehicle, a civilian armored car typically looks no different from a standard vehicle.

- **DSS-P Guard Post (Bulletproof): Authorized Dealer**

Anti-terrorist shelters have been manufacture in order to provide immunity to the guards against 9mm, .38 bore, 7.62mm NATO BALL, HAND GRENADE at direct distance. Sliding firing ports and specially designed tapered rectangular shaped cabin protects the guard so that they can fire from inside even at close distance. Bulletproof glasses have been installing all around so that the guards can fire in both sitting and standing positions. It can be lift to any place easily. It is provided with searchlights and revolving light. Air conditioning can be installing if required by the client.

KARACHI HEAD OFFICE:

F-1, Mezzanine Floor, Muhammad Ali Center, Muhammad Ali Housing Society, Near Pak Medico, Karachi Pakistan

Tel/ Fax: +92 21 34391288, +92 333 3636414, Mobile +92 336 3596379 Web. www.dsspakistan.com.pk

LAHORE OFFICE

House #. 80, Block - D, PCSIR Staff Colony, College Road, Lahore Pakistan Tel: +92 345 4759837 info@dsspakistan.com.pk

- **DSS-P Body Armoring System: Authorized Dealer**

Our ballistic vests are bullet proof up to level NIJ IIIA to the latest NIJ 0101.06 standards using our latest advanced ballistic material. With pockets front and back for ballistic hard armor plates, they can easily be upgraded to level NIJ III and NIJ IV. At the same time, they are lightweight and highly adjustable to enable easy rapid movement.

- **DSS-P Close Circuit Television (CCTV IP & Analogue):**

DSS-P has vast experience in the field of CCTV and has provided state-of-the-art surveillance solutions to almost every industry including Banks, Hospitals, Airports, Consulates, Industries, schools & Universities, Petrol Pump, Residential Apartments, Supermarkets, and Multinational Companies. Bosch Security Systems in Singapore have trained our System Designers and Technical Staff. We believe that our service, price, and quality of product are the best.

Latest generation of color cameras i.e. IP Cameras, Color Box and Dome Cameras, Day Night Cameras, Hidden Cameras, High Speed Dome Cameras, and Network Cameras etc.

- **DSS-P Electronic Walk Thru Gate and DSS-P Hand Held Metal Detectors:**

DSS-P has a vast range in Electronic Walk-Thru Gates in all brands 6 Zones and 33 Multi Zones e.g. (Metor 160 'USA', Garrett PD 6500i 'USA', ZkTeco 'High Quality Korean brand', Guard Sprit 'Chaines Brand').

- **DSS-P Access Control Time & Attendance Machine:**

DSS-P Time Attendance System being adopted in many developed countries and it has produced brilliant result in employee productivity. Finger Print Time Attendance & Biometric Time Attendance Machine not only eliminates the chances of Proxy but it also in one-way increase the employee productivity. It is also beneficial for organization because the attendance report generation is just on one click. Card Punch Attendance Machine has also been in its obsolete phase and the old generation attendance register is not now used anywhere. Finger Print & Biometric Time Attendance machine have taken place of Card Punch machine.

- **DSS-P Fire & Safety Complete Solution:**

DSS-P offers a complete solution to fire safety. We Design / Consult, Provide & Execute with offsite & onsite well equipped working teams of experienced professionals ensuring best results for all kinds of small, medium and large job commitment

Turnkey Fire Fighting Solutions to Industries and Commercial Buildings, Consulting/ Designing, Development, Execution & Maintenance, Non Compliant Solutions, Compliant with NFPA, UL & FM approved Solutions, Fire Fighting & Fire Alarm Equipment Supply and Execution, Fire Booster Systems compliant and non compliant and Auto Instant Fire Suppression System.

- **DSS-P Personal Security Guards**

And many other Security Products which are mentioned in our DSS-P Product Profile

DSS-P DISCREET ARMORED VEHICLE

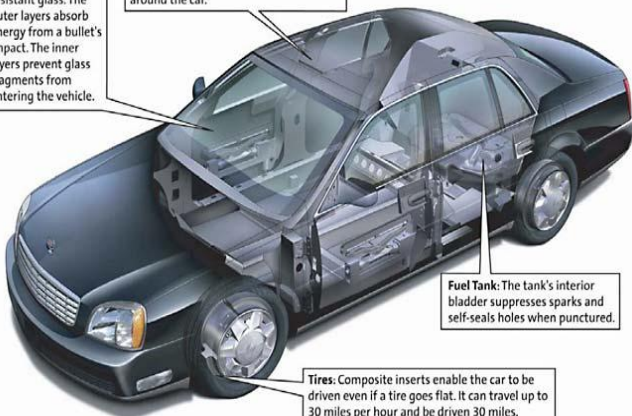

CASH IN TRANSIT VEHICLE

MAJOR PROTECTION COMPONENTS

Windows: Made of multilayered, bullet-resistant glass. The outer layers absorb energy from a bullet's impact. The inner layers prevent glass fragments from entering the vehicle.

Frame: Covered with ballistic steel panels that overlap, creating a protective shell around the car.

Fuel Tank: The tank's interior bladder suppresses sparks and self-seals holes when punctured.

Tires: Composite inserts enable the car to be driven even if a tire goes flat. It can travel up to 30 miles per hour and be driven 30 miles.
